

Statement of Aims

Vision

We want to promote education and life-long learning as key drivers for urban regeneration.

Who We Are

We are a consortium of African and African Caribbean-led supplementary schools, social providers, cultural providers and educational providers from across the Greater Manchester area. Our consortium consists of Highway Hope Supplementary schools, Grace Incorporation Faith Trust (GIFT), Highway Hope Social Enterprise, Strategies To Elevate People (STEP), Twilight School at MMU and Nurturing Foundations.

Aims

To form a growing hub of Supplementary Schools across Manchester.

Our hub of supplementary schools has five areas of focus:

- To share teaching, capital and human resources across the hub
- To focus on teaching core curriculum subjects (English, Maths and Sciences)
- To use digital, media and creative industries education and training as a medium for teaching core curriculum subjects
- To provide high quality academically relevant enrichment (extra-curricular) activities across the hub
- To support volunteer teachers across the hub with their Continuing Professional Development and Initial Teacher Training
- To form partnerships with various educational, cultural and social providers so that the hub can strengthen its educational provision within the communities it serves
- To open two culturally inclusive Free Schools (see www.meap.org.uk for more details)
